

CWCF Board Candidate Statement – Atlantic Region Director

By Morteza Amiri

As a founding member of [Expertise Hub Cooperative](#), I'm committed to advancing cooperative values across Atlantic Canada. I believe CWCF plays a vital role in building resilient, inclusive economies, and I'm eager to contribute to that mission as Regional Director. My background includes leading environmental technology projects, organizing inclusive community events, and advocating for newcomer professionals. I bring skills in project management, stakeholder engagement, and strategic planning—along with a deep understanding of rural and immigrant challenges.

I'm passionate about ensuring underrepresented voices are heard in cooperative leadership. I would be honoured to help shape CWCF's direction and support members in building sustainable, values-driven enterprises.
